Import CSV (Excel in a different format)
Need indication of successful import
View Donor Information
Better search through donations
Add donor manually

Edit Donor

Add new user admin account

Add comment to the person's name that you viewed

Comments back: **when click on name of donor, show date of donation**, if several donations, what event donation was given during: known by account string or some indication in excel spead sheet (alloc_short name), matching comp name

notes match with donor

dont need image for donors

if donors are aunonomous, want an indicator

export filtered searches (not entire thing)

Donations tab: **want to see date, indication of how many times a person gave**, be able to sort by amount given (want to see donors/donations for exactly $100 for example)

dashboard shows donations from past month or something similar

can we use with fundraiser people?: make them restricted

users can go in and see people that are associated with them (sarah would tag that) but wouldnt see donation amount, total raised by that user, overall ranking of all users for prizes

Anonymity!

Several levels of users

custom fields breaks page

search users: see how other TWB people are doing, campaign competition, aggregation of where people are at

search by donation, export searched items

be able to search and filter several things

flag notes (so that next time it shows up on dashboard-almost like a reminder)

TWB branding: TWB logo

css: blues, international patterns
